Andy Beaulieu, MD
The Deputy Director of the Center for Veterinary Medicine

11/25/99 2:12-7, 7236

Dear Andy,
Please add my letter to your petition number 99P-4613. Do not make this decision for our families. I have stopped purchasing products with genetically engineered bovine growth hormone in them. Not only are we consuming this but also the American public has not been sufficiently notified and given a choice to make an informed intelligent decision. As a mother, a small business owner, and a voter I demand that you stop interfering with our food. I buy Certified Organic when ever possible and use Alternative Medicine. I choose to be a non-smoker because I do not choose to take that risk! This too should be my choice. Please help me to protect my family and myself!

Sincerely yours,
CARIN S. BECKER
